V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. STATEMENT

Novelty (N)	Claims <u>1-16</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-16</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-16</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-16 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the claimed invention

The closest prior art of record are Yoo (US 5,421,433) and O'Donnell et al. (US 6,123,176). Yoo and O'Donnell separately discloses a load measuring apparatus having a load cell located between a hitch and a mounting plate for monitoring the load of an elevator car.

It would not have been obvious to one ordinary skill in the art to have mounted load measuring apparatus of Yoo or O'Donnell relative to the elevator hoistway as recited in independent claims.
